To Whom It May Concern:

Andrew Adelman on behalf of CoreTechs has informed us that he plans to donate \$25 of each cycle team membership to the Lucile Packard Foundation for Children's Health. These donations will provide vital support for Lucile Packard Children's Hospital and our continued commitment to provide the finest pediatric medicine to our community's children. This team will be ongoing, participating in cycle events in various locations.

Ranked as one of the nation's best pediatric hospitals by *U.S. News & World Report*, Lucile Packard Children's Hospital at Stanford is a 312-bed hospital devoted to the care of children and expectant mothers. Providing pediatric and obstetric medical and surgical services and associated with the Stanford University School of Medicine, Packard Children's offers patients locally, regionally and nationally the full range of health care programs and services, from preventive and routine care to the diagnosis and treatment of serious illness and injury. For more information, visit www.lpch.org.

Lucile Packard Children's Hospital and the Lucile Packard Foundation for Children's Health are not affiliated in any way with Mr. Adelman and/or Coretechs and are not involved in the planning or organization of this event. The Lucile Packard Foundation for Children's Health is a 501(c)(3) public charity addressing the special health needs of our region's children. The Lucile Packard Foundation for Children's Health is grateful for the support of Mr. Adelman and for his intentions of donating \$25 of each member to help support patients and their families cared for at Lucile Packard Children's Hospital.

Sincerely,

Jenna Martarano
Community Events Manager
